WHO WE ARE
DOING THE WORLD A BIT BETTER

We develop different integrations for businesses and customers using new world technologies. We also work together with brands, well-known world marketing agencies and other communities.

Besides we are working on non-obvious knowledge discovering, complicated cases solving and business model canvas designing for different companies to grow them up in Russia, CIS and the world.

Design

Integrations

THE FUNC IS NOT EQUAL TO THE FUNC'

FUNC'/ It is widely believed that ancient buildings and cathedrals, with their wonderful shapes and curves, were inspired by the formal geometry of Euclid. How else could the ancients have built these intricate structures?

FUNC/ In fact, geometry played almost no role. As Nassim Taleb shows it is almost certain that the practical wisdom of architects inspired Euclid to write his Book of Elements, so as to formalise that the builders already knew.

SOME CASES

evapolar

World's first personal air conditioner raised $1M using Indiegogo. Evapolar uses special evaporating plates of Eva Breeze patented material, which simultaneously work as a pump (soaking water for the entire height) and the vertical water surface.

altairnano

We've worked jointly with russian Titan energy company on the import and integration of the ALTI-ESS technology with innovative nano lithium-titanate batteries.

ULMART.RU

Ulmart – Russia's first internet-retailer to exceed $1 billion in sales. Opened for business only 6 years ago and already showing more dynamic growth than Amazon. We are working together with Dvigex, Ulmart's team focused on SAP enterprise software integrations.

ASSOCIATED TECHNOLOGIES

CountBOX

Our business grew out of passion for technology and IoT. The cloud-based analytics platform helps you make sense of retail data and convert it into actionable insights.

ExactFarming

Our mission is to help farmers manage productivity and, as a result, increase the profitability of their fields using effective, affordable, and evolving IT-solutions.

COUB

A coub is a looped video up to 10 seconds long. Capture a moment with a tiny bit of motion and create the illusion of a moving photograph.

SHAZAM

Identify the media playing around you, explore the music you love. Discover song lyrics from your favourite artists on Shazam.
